***Reasons For Allowance***

1. The following is an examiner's statement of reasons for allowance: Claim 1 is patentable over the prior art of record because of the specific frequency modulation apparatus, which comprises a segmentalizing device for dividing, into a plurality of segments in units of pixel, a main scan line on an image bearing member scanned by a laser beam, an auxiliary clock calculation device for employing a reference clock period, and variable-magnification coefficients corresponding to the respective segments, to calculate auxiliary clock periods for the respective segments, an image clock generating device for generating image clocks for the respective segments based on an initial predesignated period value and the auxiliary clock periods for the respective segments, a reference value storing device for storing a reference value, a detecting device for detecting a difference between the reference value and an actual laser irradiation location, and a correcting device for correcting a shift in the laser irradiation location in accordance with the detection results obtained by the detecting device, wherein the detecting device separates the segments into blocks of continuous segments, and detects a shift between a laser irradiation position based on a value predesignated for each of the blocks and an actual laser irradiation position, and wherein, in accordance with the detection results obtained by the detecting device, the correcting device controls a pixel period of the segment, and corrects the shift of the laser irradiation position. The combined limitations as currently claimed are not taught by the prior art of record considered alone or in combination.

Claims 6-9 are allowed because they are directly or indirectly dependent from claim 1 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
